

# mobitherm joins the Mobil in Time Group

Diessenhofen, April 4, 2023 - The Mobil in Time Group ("MiT Group"), a leading provider of mobile energy solutions in Switzerland and Germany, is integrating the Bavarian company mobitherm into Mobil in Time Deutschland GmbH. Thanks to the merger, MiT Group strengthens its leading position as a mobile energy systems provider and further expands its footprint in southern Germany.

Previously, Mobil in Time served the German market from its location in Aach (BW), as well as from its more central site in Riedstadt (HE). The integration of mobitherm, located in Feldkirchen-Westerham (BAV), marks a further milestone for MiT Group, both geographically and technically. Our committed goal is to provide HVAC installers, construction companies and all other building technology businesses with fast and reliable solutions as well as in-depth technical expertise for mobile heating, cooling, and air throughout Germany.

According to Michael Thies, Managing Director of Mobil in Time Deutschland GmbH, this integration will primarily benefit customers: "The integration of mobitherm is a crucial step for Mobil in Time to further strengthen our position as a specialist provider of mobile heating and cooling systems. By merging the two companies, we are even more responsive to our customers: we can offer an expanded equipment pool, a larger team and an additional location, resulting in even better execution speed and flexibility for our customers."

For mobitherm's employees and customers, the integration will have little impact. mobitherm's team and its previous owner Ingo Zahn will stay on board and continue to consistently deliver the highest service level to its customers. Ingo Zahn will remain in the company as regional manager for the location in Feldkirchen-Westerham and is looking forward to the transition: "I am very proud of mobitherm's development and the performance of my team. We look forward to joining forces and offering our customers the well-known, excellent service with a significantly expanded product range."

Verium is an independent multi family office and manages direct investments in medium-sized companies in the DACH region for its investors. Latest investments include Home Instead, basefit.ch, Christ & Heiri, Toradex, Ceposa/F&S, Quickmail/Quickpac, Mobil in Time, DSwiss, Zünd/Optivac and Sequotech.

For this transaction, Verium was advised by de Angelis Rechtsanwälte PartG mbB (Legal) and AC Christes & Partner GmbH (Finance/Tax).

mobitherm operates in the greater Munich area as a full-service provider for mobile heat and air solutions as well as construction drying. The company has earned an excellent reputation as a full-service provider with a high degree of quality and flexibility.

Thanks to continuous growth, great technical expertise and strong regional roots, mobitherm developed long-standing customer relationships with HVAC installers, building technicians and property managers. The company is located in Feldkirchen-Westerham, Germany, and mainly serves the greater Munich area.

MiT Group includes Mobil in Time, a leading provider of mobile energy solutions in the areas of heating, cooling and steam applications. As of 2020 (resp. 2021), MiT Group also owns nassag Trocknungs- und Messtechnik AG, Trobag Trocknungstechnik AG and Zigerlig Bautrocknung AG, which are active in the field of water damage restoration as well as construction drying.
